Battery Speaker

Electro is the best **battery** in the world.

Recharge your device or smartphone. Listen to your music wherever you want. Electro is portable.

Stands out.

If you run out of battery, connect your smartphone **charging** cable to Electro's USB port. Or connect the jack to the audio input if you want to listen to **music** on your desk, on the beach...wherever you want.

Pull out and rotate the locating shaft to a pre-terminated position

Music

- Insert your 3.5mm plug into your mobile device
- Press the Play button on your mobile device to activate Electro and music will be played in 3 seconds.
- Electro will shutdown automatically in 60 seconds when you stop the music

Charging

- Connect your electronic device's special connecting cable to the USB interface of Electro for charging
- When the charging process is started, the indicator will flicker one by one in the direction of the arrow

Pull out and rotate the locating shaft to a pre-terminated position

- Portable external battery for mobile devices
- 2200mAh high battery capacity
- Passive speaker, not affecting the battery power
- Switch on and off through detecting audio signal automatically
- Power input and output through single USB port
